adviser and who was a strong candidate for Congressman-at-large before the republican state stional headquarters in New York.

Greer says he has it from unquestionable thority that \$28,000 was slipped into Kansas o days before election and was used in rushing votes for the fusion state and Weaver national tickets. He says \$2,000 was sent to the First National Bank of A ansas City and dis-tributed through that institution; the same to Pittsburg, Fort Scott, Kansas City, Kan.; To-peka, Salina, Atchison, Wichita, Hutchinson and so on. He says that in those cities there re a large number of voters not registered and that a scheme was fixed up by which they vere taken in carriages and buses to the nearest polling place in the county and voted solidly for the people's ticket. It was arranged hat the fusionists were to be on hand early election morning and get possession of these country polling places and then admit all these votes in spite of republican challengers, which he says was done. He cites one instance in a township in Cowley county, bordering on the Cherokee strip and near Arkansas City, where minety-eight illegal votes were cast and counted, and that many of them were from Arkansas City, some from Oklahoma, one from Califor-nia and a purchase of the counter of and a number of "sooners," who camped on the Cherokee strip. This was an organized movement, says Greer, all along the southern border of the state, and that the several thousand more than the late census shows they have. In nearly every county along the southern border of the state the republican candidates for the senate or lower house were defeated, which has given the op-position the legislature on joint ballot by five

THE REAL FACTS. The real facts are that the combination be-

tween the democrats and people's party was strong enough to defeat the republicans. They started in with 60,000 majority, and the republicans made a great fight to reduce that ma-jority to 4,000. No combour was ever so suc-cessful before in any sto in the Union, and while the republicans consoling selves that it can never occur again, they are time, saving nothing out of the wreck but the lower house of the legislature, and that by but one vote, and that vote contingent on a tie, which will be decided by lot. And here is a peculiar condition of things.

The constitution of the state forever prohibits lotteries and drawings of any kind, and yet the statutes provide that in case two candidates for the legislature have an equal number of votes the election must be declared by lot. The senatorial question seems to be a second-

ary consideration with the republicans. There are five majorital against them on joint ballot. and they figure that there isn't much in it for ease and honor only to the man elected and for only two years. With a democratic President be could not help his party in Kansas to places, so they are virtually conceding it to the opposi-tion and are making the fight for state printer, which pays at least \$25,000 a year. The plan is to make a democratic Senator for enough democratic votes to elect the republican state printer.

Maj. J. K. Hudson, editor of the Topeka Daily Copital, and Geo. W. Crane seem to be the leading contestants. The opposition, however, concedes nothing.

but insists on both places. They say they have the votes and will be able to deliver the goods. But whether the new Senator will be a democrat or populist is a problem no man can at

The recent effect of a few disappointed poli-

ticians in western Kansas to organize a movement to divide the state will not succeed. In the first place they will not be able to get such a measure through the Kansas legislature, and it is the opinion of leading democrats here that a democratic Congress would refuse to make a new republican state which would have two republican Senators, and two, and possibly three, republican Congressmen. The proposed new state would be republican by about 8,000. The ions is located in the proposed new state. Quite an effort will be made to divide in the ning legislature, but it will fail, and Kanwill remain for many years to

Mrs. Mary E. Lease, the noted people's party advocate, is here. To THE EVENING ing the meteoric shower last night thought the STAR representative she said: "I do not know judgment day had come and became greatly whether I will be a candidate for the United States Senate or not. If the politicians and the demagagues make war on me because I am will make the fight and I will win. because I know the masses of the people are with and for me. One thing you can say, and that is that no democrat will go to the Senate from Kansas. It will be a middle of the road populist, and if impossible to elect one of them anything but a democrat—even a republican would be preferable. Another thing, Jerry Simpson or any of his kind who are in league with the democratic party cannot reach the Senate, and I am against democracy and will fight it for the next four years with as much vigor as I have the republicans. There is a principle involved in this fight for the people. and neither of the old parties can sway me one inch.

A great many people have called on Mrs. Lease during her stay here and assured her of their earnest support for the senatorship if she enters the fight.
